Document

WHAT

INTRODUCTION

of component's name and succinct descriptive content that sets the tone of what's there. **(Required)**

EXAMPLES

illustrating a component's named variation, states, and other dimensions, preferably paired with and rendered by code instead of presented via static images. **(Required)**

DESIGN REFERENCE

including Use Whens, Do's and Don'ts, and guidelines for visual, interaction, and editorial concerns. **(Recommended)**

CODE REFERENCE

Detailing the code's API (such as Props) and other implementation concerns. **(Required, if code exists)**
